Welcome to the International Journal of Applied and Advanced Multidisciplinary Research (IJAAMR), an academic platform devoted to the dissemination of high-quality research across diverse fields of study. IJAAMR provides opportunities for scholars, researchers, and practitioners to share innovative ideas, empirical findings, and practical applications that address complex issues from a multidisciplinary perspective.

This journal emphasizes the integration of knowledge from various disciplines, reflecting the belief that today's challenges require collaborative approaches and cross-cutting solutions. Each volume presents a wide range of topics—including science, technology, health, education, social sciences, economics, and environmental studies—that demonstrate the dynamic nature of applied and advanced research.

We sincerely thank the authors for their valuable contributions, the reviewers for their commitment to maintaining the quality and integrity of the publication, and the editorial team for their dedication. It is through this collective effort that IJAAMR continues to strengthen its role as a reliable source of scholarly knowledge and innovation.

We hope this issue inspires further research, fosters academic collaboration, and contributes meaningfully to the advancement of science and society.

Happy reading
